Re: Hazardous Waste Disposal for Schools, Government Agencies, Farms, and Businesses

Dear Mayor Randy Casale,

Dutchess County is holding its third annual Fall cleanout for hazardous materials! The collection event to facilitate disposal of hazardous materials for Conditionally Exempt Small Quantity Generators (CESQG) is being held on **Friday, October 26, 2018**. If you meet the requirements of a CESQG you can get rid of hazardous chemicals, oil based paint, pesticides, mercury, fluorescent bulbs, and more, in a cost effective and environmentally sound manner. By taking part in this event you can save on disposal costs as you can bring your own materials and do not have to pay a hazardous waste company to go to your location using their permitted hazardous waste vehicle. Also, due to the economies of scale because of the number of generators participating in this event, this is the most cost effective way to dispose of hazardous materials.

Who are considered small quantity generators?

1. Non-residential generators that generate less than 220 lbs or approximately 26 gallons of non-acute hazardous waste per month, and
2. Generate no more than 2.2 lbs of acute hazardous waste per month.

You must register for the event by October 5, 2018. Mail registrations to Dutchess County Solid Waste Management, 96 Sand Dock Road, Poughkeepsie, NY 12601 or fax to (845) 462-6090 or email to solidwastemgmt@dutchessny.gov. Prior to the collection event, we will forward the information to the contractor for the program, CARE Environmental, who will contact you to give you an estimate of the cost, payment options and an appointment time on the collection day. **The collection is held at 96 Sand Dock Rd, Poughkeepsie, NY.**

CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR CERTIFICATION

I hereby certify that I am a generator of hazardous waste within the State of New York and that because of the small volume of hazardous waste generated and/or stored, I qualify for conditionally exempt small quantity generator status.

I understand that in order for conditionally exempt small quantity generator status, I must meet all three of the following conditions:

1. Generate less than 1 kg/month (2.2 pounds) of acute hazardous waste (as defined by 6 NYCRR Part 371), and never store more than this amount on site at any time; and
2. Generate less than 100 kg/month (220 pounds) of all other hazardous waste (as defined by 6 NYCRR Part 371), and never store more 1,000 kg/month on site at any time.
3. Transport a maximum of 220 lbs of hazardous waste at one time.

I further understand that if, in the future, I exceed the quantity limitations described above, I will become subject to additional regulation as a hazardous waste generator and will no longer be eligible to participate in this type of collection program.

I certify that I have the authority to make these statements on behalf of my school, government agency or business. Also, I, the undersigned, do hereby certify that the items brought for collection came from my school, government agency or business located in Dutchess County.
